well as laboratory or homework assignments, or a combination of the two. Tutorial-style labs include onscreen instructions and provide instant feedback as students answer questions online. Workbook-style labs provide background information and instructions in a separate workbook that students download. Both styles include a set of auto-graded quiz Interactive Virtual Biology Labs: Ecology, Evolution, Cell ... A pair of coyotes colonized a large island where rodents (their prey) were abundant. At first, the number of coyotes increased. But as the coyote population increased, competition for prey also increased and the coyote population grew more slowly. In some years, weather conditions killed many of the

Quiz 1 | Ecology Quiz - Quizizz “A
population graph shows what
happens to the population of a
species over time. The x-axis
shows. passage of time; the farther
you go to the right, the more time
elapses. The y-axis shows
population size; as you go up the
axis, the population increases. The
scales for both population and time
are determined by the data.” 2. Pop
